What is Quantix Tickets?

Quantix Tickets is a professional ticket and application system for Discord — built for teams that need more than just buttons.

Highlights

- **Unlimited tickets** with topics, forms, priorities, auto-close, merge, split, reopen
- **Application system** with voting, interviews, cooldowns, and a public portal
- **Web dashboard** (tickets.quantixbot.app) for full configuration
- **9 languages**: German, English, Hebrew, Japanese, Russian, Portuguese, Spanish, Indonesian, Arabic
- **Voice support** for voice-channel tickets
- **Whitelabel & server branding** for Pro servers
- **Analytics & statistics** across all tickets

Who uses this?

- Gaming communities with support requests
- Roleplay servers with application systems
- Studios and developer teams
- Discord bot vendors with whitelabel needs
